Professional Summary

2.5+ year experience as a Front-End dev. I am interested in React and I'm looking for a job that will help me improve my skills. Responsible, diligent, reliable, able to listen, friendly, able to learn quickly and team player.

Work Experience

Sebale, React developer   11.2019 - now

I was working with augmented reality platform, where I was creating and implementing the functionality for this project. Also I served as front-end team lead and organized tasks for others. I had experience with React hooks, React SSR, React Routing, RestAPI and other web technologies. My projects are the following:

- talim.io
- app.talim.io
- sunspire.com
- zakhidne-minjust.gov.ua

Chunkup, Web Development Lab,   04.2019 - 11.2019
front-end dev.

During this period I worked on the frontend part in American tender projects. Worked with c# templates, angular components, javascript, css3 & html5, completely rewrote the project for responses, and also added support for Internet Explorer. Technology stack: sass, js, es6, c#, html5, css3, BrowserStack, bitbucket.

Also, created a js library/plugin for the e-commerce platform, which creates your own label that is placed on any product in the store. Technology stack: sass, js, es6, typescript, RestAPI, swagger, canvas, html5, css3, BrowserStack, bitbucket, zeplin.

- Commercial Client product (library/plugin)
- https://qa.k12buy.com/landing/
- https://qa.prorfx.com

UPQODE LLC, front-end dev.   01.2018 - 04.2019

During this period, I worked on WordPress as frontend dev, creating templates that were sold at https://themeforest.net and commercial sites. Responsive, Cross-browser compatibility, W3C markup validation, HTML5, CSS3, Nunjucks, SASS, LESS, jQuery, pure javascript, php, wordpress.
